Wish List Funding Application Guidelines

These guidelines have been provided to assist with the application process. Should you require further explanation or assistance, Parents and Friends can be contacted through the P&F e-mail address at ParentsandFriends@brightp12.vic.edu.au.

Application Process

Applications under $500.00 can be submitted for consideration at any P&F meeting throughout the year. Meetings are held in week 3 and 7 of each Term throughout the school year.

Funding applications over $500.00 are processed throughout Term 2 of the school year because this is the time of year when the P&F account has the most funds available. As Parents and Friends are a sub-committee of the College, applications must be approved according to College protocols. Once P&F have approved applications they require further approvals from Finance committee, Development committee and College Council.

Each year a P&F representative is nominated to collate the wish list for discussion and consideration at the P&F Term 2 meeting in week 3. You may be contacted by P&F to provide additional information before any final decisions are made. It is important that you provide additional information as soon as possible so that final decisions can be made at the P&F Term 2 meeting in week 7. Applications are open from Term 4 of the preceding year and close at the end of Term 1 of the current year. (I.e. open term 4 in 2013, close end term 1 in 2014 – allowing for planning throughout term 4 and throughout term 1 of the following school year).

Part A: Contact details

This section provides the nominated P&F Wish List representative with your contact details so that if correspondence needs to be entered into, they have the correct details. This section also determines where the requests are coming from i.e. parents/guardians, staff or students.

Part B: Details of item requested

In this section all relevant information pertaining to the item should be provided.

Item and description should include product details including brand, supplier, a brief description, the number requested and any codes or specific details which may appear on the school order form.

Cost includes the unit price, GST, delivery costs, Installation and any other costs associated with the item. All applications must include quotes. In the case of on-line products, subscriptions or programs, a copy of the advertisement or e-mail from the distributor/author which outlines costs will suffice. In the case of products, a quote from the relevant supplier including delivery must be provided. If the item requested requires installation, a quote which includes the professional installation costs must also be provided. In the case of capital works or building and or maintenance, a minimum of two quotes from certified contractors or relevant tradespersons must be provided.

Use by year levels and benefits to the College provides P&F with an overview of how the funds are distributed throughout the whole school community and who will be of most benefit from the item requested. E.g. Line marking on Basketball courts not only provides increased opportunity for physical activity, but a space that provide examples of mathematics in action – space, area,
cubic metres, angles. Although situated in one area of the school, the benefit is wider than physical activity and can provide opportunity for active mathematics lessons.

**What other sources of funding have been sought** provides P&F with historical evidence of the need for this item. If applicants have tried to access funds through other committees, leadership teams, have previously submitted Wish List applications; or pursued external sources or grants such as community grants, Schools first, then this should be included in the application as it demonstrates a genuine need for the item.

**Has the application been discussed with others?** This tick box section requests that all applications have been flagged at the relevant committee or appropriate body and must be completed. It ensures that applications have been submitted with relevant approvals and are not independent requests.

**Part C:** Checklist to ensure that all relevant documentation and has been completed and attached.

**Frequently asked questions**

**Who decides which applications are funded?** Once the wish list has been collated, the spreadsheet is forwarded to the P&F database for comment, week 1 or 2 of Term 2. Comments are collated and applications are reviewed and discussed at the week 3 meeting of Term 2, by meeting attendees. This is an open meeting and provides an opportunity for applicants to “Showcase” their requests.

**How are the decisions made?** The P&F week 3 meeting in Term 2 is dedicated to determining which applications can be funded based on funds available, number of applications received and previous year’s successful applications. Decisions are made considering comments received from the P&F database, rigorous discussion from those present at the meeting and the greatest benefit and need demonstrated within the application.

**How and when will I find out if my application has been successful?** Once the P&F approved applications have been determined, the spreadsheet is sent to Development committee, Finance committee and finally College Council for their approval. These approvals are made between week 3 and 7 of the term. Successful applications will be posted on the P&F page of the school website in week 8 or 9 of Term 2.

**How long do I have to use the money?** Successful applications must have ordered their items by the end of Term 3. If items are not ordered by the end of Term 3, the request is cancelled and funding returns to the pool.

**What if the quoted cost has changed?** Applicants need to advise any amounts above the approved costs as determined on the application. If funds are available they will be granted, however the shortfall may need to be deducted from the budget of the area requesting the item.
